What Problems Diversity Insight can Solve

- Are you missing program goals due to inadequate visibility and tracking?
- Are you experiencing incomplete data and inefficiencies because of disparate systems?
- Do incompatible systems result in more work and errors in data entry?
- Are limited search capabilities making it difficult to find and engage the right certified vendors?
- Do staff and vendors feel frustrated due to communication challenges?
- Do you find it difficult to track bid submissions and compliance requirements?
- Are you facing complexities in managing multiple grant programs and projects?

Di

What Problems Diversity Insight can Solve

- Feeling overwhelmed by supplier diversity and compliance across industries?
- Struggling to ensure transparency and accountability in your supply chain?
- Tired of manual processes risking compliance reporting errors?
- Concerned about missed opportunities due to inefficiencies? Worried about limited visibility into vendor responses?
- Ready to simplify RFP management and enhance collaboration?

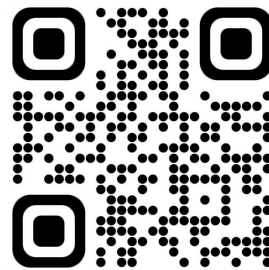

The Solution

Unlock supply chain diversity with data insights. Automate data collection to easily track spending, identify diverse suppliers, and ensure compliance. Make diversity goals a reality.

- Vendor Management & Diversity Certificate Tracking
 1. Seamless RFP Creation
 2. Multiple Bid Types
 3. Inefficient communication
 4. Difficult to scale
- RFP/RFQ/RFI Opportunities
- Flexible Reporting for Procurement and agency insights
- Contracts Management & Compliance Tracking
